Aman Lokhande, UX Designer

Chicago, IL **|** (312) 684-1827 **|** amanlokhande7@gmail.com **|** amanlokhande.com

Work Experience

TA Digital (now Credera), *Senior UX Designer*   *November 2021 to December 2022*

- Re-designed the existing design system and style guide for the American Cancer Society (ACS) to maintain consistency across all its products, adhering to accessibility standards.
- Successfully led a team of 2 designers to re-design the American Cancer Society website.
- Designed an application (CPS-3 HEALED) to study cancer survivors' lifestyles and physical activities.
- Collaborated with cross-functional teams, including project managers and developers, to validate and iterate designs from concept to implementation, ensuring alignment with business goals.

Tata Consultancy Services, *UI/UX Designer*   *October 2016 to October 2021*

Selected Projects

Intel — *UX and Interaction Designer*

- Delivered user research insights, personas, and user flows for the Learning Management System.
- Led a team of 3 designers to create wireframes and interactive prototypes to gather and analyze user feedback to improve the user experience.

ICICI Bank — *Interaction and UI Designer*

- Solved layout challenges of the banking application and collaborated with other designers to ensure consistency across all products.
- Created wireframes to communicate design ideas and functionality and translated them into high-fidelity mockups and interactive prototypes for stakeholders.
- Facilitated developers' handoff of the design assets to ensure the seamless implementation of designs, providing detailed design specifications and addressing any issues during development.

Ericsson — *UI/UX Designer*

- Designed information architecture, user flows, wireframes, high-fidelity mockups, and prototypes for a data visualization application to monitor key performance indicators (KPIs).
- Tested interactive prototypes by running usability tests with participants to validate and improve the design solution, resulting in a 16% increase in user satisfaction.
- Conducted a design workshop for the client to help them understand the design process involved in creating the application.

Education

DePaul University, Chicago   *March 2023 to June 2025*
MS Human-Computer Interaction

Medicaps Institute of Technology and Management, India   *August 2012 to June 2016*
BE Computer Science and Engineering

Skills

Research: Heuristic Evaluation, User Interviews, Card Sorting, A/B Testing, Personas, Task Analysis, Surveys, Usability Testing, Contextual Inquiries, Affinity Mapping, Profiles & Scenarios

Design: Wireframing, Prototyping, User Flows, Interaction Design, Visual Design, Style Guides, Sketches, Task Flows, Design System

Tools: Figma, Adobe XD, Sketch, Axure, Zeplin, Marvel, Microsoft Office 365
